

## INSTRUCTIONS TO CONTRIBUTORS

All articles and notes should be submitted to the editor in duplicate, typed, double-spaced throughout (including tables, literature cited, etc.), and on one side only of good quality paper. Dot-matrix printers associated with home computers generally **do not** produce copy suitable for submission to the *Journal of Field Ornithology*. Xerographic copies are acceptable as long as they are not on heavy, slick paper. **Paper** on which manuscripts are typed and any **figures** submitted with the manuscript **must not exceed** 21.5 × 28 cm (8½ × 11 in). Figures are best submitted as glossy 13 × 18 cm (5 × 7 in) prints.

**Manuscripts submitted to the *Journal of Field Ornithology* must be original and should not have been published, nor submitted for publication elsewhere, even in part.**

*Preparation of manuscript text.*—Use a short, descriptive title. Leave ample margins on all sides, number each page, and do not use footnotes. Manuscripts with fewer than 5 literature citations should include citations within the text in abbreviated form; those with 5 or more citations should include a Literature Cited section at the end of the manuscript. The scientific name of an organism should be given the first time that the organism is mentioned and should be underlined—do not use italic type. Metric measurement units should be used. Measurement unit abbreviations should be those given in the fourth edition of the Council of Biology Editors Style Manual (1978). Each table title should be concise and should appear at the top of the table. All figure captions should be typed double-spaced one after another on a page or pages preceding the figures. Do not indicate figure number or print the caption on the face of the figure. The author's name and the figure number should be printed on the back of each figure.

*Preparation of figures.*—Figures should be uncluttered but should convey a maximum amount of information. They should not duplicate information presented in text or tables. In preparing figures, use "thin" rather than "fat" letters such that reduction of the figure will not result in the closure of spaces in letters such as "e" and "p." Lettering on a figure should not be typed.

*Preparation of literature citations.*—Literature citations should follow the styles used in the *Journal of Field Ornithology* beginning in the Autumn issue, 1980. Journal names should be abbreviated using the abbreviations found in *BIOSIS*. Unpublished papers or reports not generally available should not be cited unless a copy has been deposited in the van Tyne Library at the Museum of Zoology, University of Michigan, where they may be obtained for use by other researchers. Do not cite manuscripts that are in preparation.

## CONTENTS

TIMING OF BREEDING AND MIGRATIONS IN A POPULATION OF LEAST FLYCATCHERS IN MANITOBA By <i>Spencer G. Sealy and Gloria C. Biermann</i> . . . . .	113
LONGEVITY RECORDS OF NORTH AMERICAN BIRDS: COLUMBIDAE THROUGH PARIDAE By <i>Roger B. Clapp, M. Kathleen Klinkiewicz, and Anthony G. Fletcher</i> . . . . .	123
A COMPARISON OF RECAPTURE VERSUS RESIGHTING DATA IN A 15-YEAR STUDY OF SURVIVORSHIP OF THE BLACK-CAPPED CHICKADEE By <i>William H. Elder and Dale Zimmerman</i> . . . . .	138
RECAPTURES OF REDPOLLS: MOVEMENTS OF AN IRRUPTIVE SPECIES By <i>Declan M. Troy</i> . . . . .	146
ANALYSIS OF PLUMAGE VARIATION IN THE CANADA WARBLER By <i>John H. Rappole</i> . . . . .	152
COMMON TERNS IN THE NORTHERN GREAT LAKES: CURRENT STATUS AND POPULATION TRENDS By <i>Gary W. Shugart and William C. Scharf</i> . . . . .	160
REPRODUCTIVE PERFORMANCE OF CASPIAN TERNS AT A NEW COLONY ON LAKE ONTARIO, 1979-1981 By <i>Peter M. Fetterolf and Hans Blokpoel</i> . . . . .	170
GENERAL NOTES	
MOLT-BREEDING OVERLAP AND TIMING OF PRE-BASIC MOLT IN TEXAS LEAST TERNS By <i>Bruce C. Thompson and R. Douglas Slack</i> . . . . .	187
BELLY-SOAKING BY INCUBATING AND BROODING COMMON TERNS By <i>Ian C. T. Nisbet</i> . . . . .	190
AUTOMATIC RECORDING OF NEST VISITS BY BURROW-NESTING BIRDS By <i>Michael Schramm</i> . . . . .	192
A RADIO-CONTROL METHOD FOR TRAPPING BIRDS IN NEST BOXES By <i>Michael P. Lombardo and Edward Kemly</i> . . . . .	194
BLACK-LEGGED KITTIWAKE FEEDING FLOCKS IN ALASKA: SELFISH/RECIPROCAL ALTRUISTIC FLOCKS? By <i>Range D. Bayer</i> . . . . .	196
PROLONGED INCUBATION BY A LONG-EARED OWL By <i>Jeffrey S. Marks</i> . . . . .	199
LACK OF VOCAL MATE RECOGNITION IN FEMALE RED-WINGED BLACKBIRDS By <i>L. David Beletsky and Michael G. Corral</i> . . . . .	200
