

CBE STYLE MANUAL

Fifth Edition

A guide for Authors, Editors, and Publishers in the Biological Sciences

Widely accepted and recommended as the standard reference for journals and books in the biological sciences

Special features of this newly updated and greatly expanded edition include:

- four new chapters;
 - reorganization of the "Manuscript Preparation" section for easier reference;
 - new conventions in the chapter on "Style in Special Fields";
 - complete revision of the section on "Plant Sciences";
 - cross-listing of "Abbreviations and Symbols";
- and much more . . .

CONTENTS: Ethical conduct in authorship and publication • Planning the communication • Writing the article • Prose style for scientific writing • References • Illustrative materials • Editorial review of manuscripts • Application of copyright law • Manuscript into print • Proof correction • Indexing • General style conventions • Style in special fields • Abbreviations and symbols • Word usage • Secondary services for literature searching • Useful references with annotations • Subject index

ISBN: 0-914340-04-2; clothbound; publication date: September 1983; trim size 6 x 9 inches; 324 pages

Regular Price: \$24.00 (10% discount on 10 or more copies delivered to one address)

CBE Member Price: \$21.50 (single copy paid by personal check)

Terms of Sale: All sales final; no returns.

Prepayment required; U.S. currency drawn on a U.S. bank.

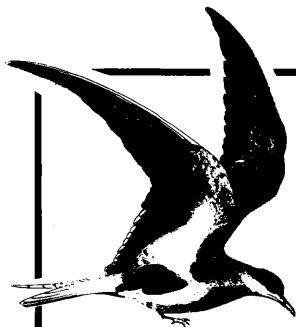

Price includes **BOOK RATE** postage.

For faster delivery--first class, air mail, or UPS available at additional charge (book weight 1 lb 9 oz).

Maryland residents, please add 5% sales tax.

Mail your order with payment to:

STUDIES IN AVIAN BIOLOGY

A MONOGRAPH SERIES OF THE COOPER ORNITHOLOGICAL SOCIETY

- STATUS AND DISTRIBUTION OF ALASKA BIRDS.** *By Brina Kessel and Daniel D. Gibson. November 1978. 100 pp. Studies in Avian Biology No. 1.* Brings up to date the knowledge of distribution and occurrence of birds of Alaska, based on published and unpublished records since Gabrielson and Lincoln's *The Birds of Alaska*. 1959 \$9.00
- SHOREBIRDS IN MARINE ENVIRONMENTS.** *Edited by Frank A. Pitelka. June 1979. 261 pp. SAB No. 2.* out of print
- BIRD COMMUNITY DYNAMICS IN A PONDEROSA PINE FOREST.** *By Robert C. Szaro and Russell P. Balda. October 1979. 66 pp. SAB No. 3.* Analysis of breeding bird communities on clear cut, uniform cut, silviculturally cut, and control plots in the Coconino National Forest near Flagstaff, Arizona, during three years of study \$6.50
- THE AVIFAUNA OF THE SOUTH FARALLON ISLANDS, CALIFORNIA.** *By David F. DeSante and David G. Ainley. April 1980. 104 pp. SAB No. 4.* Based on over 11 years of daily observations by Point Reyes Bird Observatory personnel, this work summarizes all known data for the 346 species of birds occurring on or around the islands: 223 are freshwater or terrestrial forms, for a landmass of 0.41 km², 32 km from the northern California coast \$10.00
- ANNUAL VARIATION OF DAILY ENERGY EXPENDITURE BY THE BLACK-BILLED MAGPIE; A STUDY OF THERMAL AND BEHAVIORAL ENERGETICS.** *By John N. Mugaas and James R. King. May 1981. 78 pp. SAB No. 5.* This analysis of expenditure of energy by the Black-billed Magpie through one annual cycle in eastern Washington is the result of integrated field and laboratory study. Principal topics considered include the thermal environment and its influence on the biology of the magpie and energy budgeting in the annual cycle, followed by a discussion of these in relation to other aspects of the ecology and behavior of the species and a comparison with other species \$8.00
- ESTIMATING NUMBERS OF TERRESTRIAL BIRDS.** *Edited by C. John Ralph and J. Michael Scott. October 1981. 630 pp. SAB No. 6.* out of print
- POPULATION ECOLOGY OF THE DIPPER (*Cinclus mexicanus*) IN THE FRONT RANGE OF COLORADO.** *By Frank E. Price and Carl E. Bock. 84 pp. SAB No. 7, November 1983.* This report, based on three years of field work, focuses on a particular population, its resources, social interactions, reproductive success and the potential effects of certain abiotic factors upon it \$9.00
- TROPICAL SEABIRD BIOLOGY.** *Proceedings of an International Symposium of the Pacific Seabird Group. Edited by Ralph W. Schreiber. 114 pp. SAB No. 8, December 1983.* A collection of six papers presented at a 1982 symposium on seabirds of the low latitudes and their relationship to the marine ecosystem \$12.00

Orders should be prepaid, except for standing orders. Prices listed above include postage and handling. Make checks payable to *Cooper Ornithological Society*. Send orders to Cooper Ornithological Society, P.O. Box 368, Lawrence, Kansas 66044.

INSTRUCTIONS TO CONTRIBUTORS

All articles and notes should be submitted to the editor in duplicate, typed, double-spaced throughout (including tables, literature cited, etc.), and on one side only of good quality paper. Dot-matrix printers associated with home computers generally **do not** produce copy suitable for submission to the *Journal of Field Ornithology*. Xerographic copies are acceptable as long as they are not on heavy, slick paper. **Paper** on which manuscripts are typed and any **figures** submitted with the manuscript **must not exceed** 21.5 × 28 cm (8½ × 11 in). Figures are best submitted as glossy 13 × 18 cm (5 × 7 in) prints.

Manuscripts submitted to the *Journal of Field Ornithology* must be original and should not have been published, nor submitted for publication elsewhere, even in part.

Preparation of manuscript text.—Use a short, descriptive title. Leave ample margins on all sides, number each page, and do not use footnotes. Manuscripts with fewer than 5 literature citations should include citations within the text in abbreviated form; those with 5 or more citations should include a Literature Cited section at the end of the manuscript. The scientific name of an organism should be given the first time that the organism is mentioned and should be underlined—do not use italic type. Metric measurement units should be used. Measurement unit abbreviations should be those given in the fourth edition of the Council of Biology Editors Style Manual (1978). Each table title should be concise and should appear at the top of the table. All figure captions should be typed double-spaced one after another on a page or pages preceding the figures. Do not indicate figure number or print the caption on the face of the figure. The author's name and the figure number should be printed on the back of each figure.

Preparation of figures.—Figures should be uncluttered but should convey a maximum amount of information. They should not duplicate information presented in text or tables. In preparing figures, use "thin" rather than "fat" letters such that reduction of the figure will not result in the closure of spaces in letters such as "e" and "p." Lettering on a figure should not be typed.

Preparation of literature citations.—Literature citations should follow the styles used in the *Journal of Field Ornithology* beginning in the Autumn issue, 1980. Journal names should be abbreviated using the abbreviations found in *BIOSIS*. Unpublished papers or reports not generally available should not be cited unless a copy has been deposited in the van Tyne Library at the Museum of Zoology, University of Michigan, where they may be obtained for use by other researchers. Do not cite manuscripts that are in preparation.

CONTENTS

MIGRATION AND WINTER QUARTERS OF NORTH AMERICAN ROSEATE TERNS AS SHOWN BY BANDING RECOVERIES By <i>Ian C. T. Nisbet</i>	1
REPRODUCTIVE SUCCESS OF BLACK SKIMMERS IN TEXAS RELATIVE TO ENVIRONMENTAL POLLUTANTS By <i>Donald H. White, Christine A. Mitchell, and Douglas M. Swineford</i>	18
AN ASSESSMENT OF THE IRRUPTIVE STATUS OF THE BOREAL CHICKADEE IN NEW YORK STATE By <i>Robert P. Yunick</i>	31
DISTRIBUTION, HABITAT, AND STATUS OF THE SORA AND VIRGINIA RAIL IN EASTERN KANSAS By <i>John L. Zimmerman</i>	38
GROWTH OF NESTLING SCRUB JAYS IN CALIFORNIA By <i>Lyman V. Ritter</i>	48
AGE AND SEX SIZE VARIATION IN GOLDEN EAGLES By <i>Gary R. Bortolotti</i>	54
NESTING HABITAT OF THE LIGHT-FOOTED CLAPPER RAIL IN SOUTHERN CALIFORNIA By <i>Barbara W. Massey, Richard Zembal, and Paul D. Jorgensen</i>	67
INCIDENCE, CLUSTERING, AND EGG FERTILITY OF LARGER THAN NORMAL CLUTCHES IN GREAT LAKES RING-BILLED GULLS By <i>Peter M. Fetterolf, Hans Blokpoel, Pierre Mineau, and Gaston Tessier</i>	81
PARK WATERFOWL POPULATIONS IN MASSACHUSETTS By <i>H W Heusman and Richard Burrell</i>	89
IMPORTANCE OF SYCAMORES TO RIPARIAN BIRDS IN SOUTHEASTERN ARIZONA By <i>Carl E. Bock and Jane H. Bock</i>	97
RANGE EXPANSION OF THE SHINY COWBIRD IN THE DOMINICAN REPUBLIC By <i>Wayne J. Arendt and Tomás A. Vargas Mora</i>	104
GENERAL NOTES	
LEAST TERNS NEST ALONGSIDE HARRIER JET PAD <i>Robert L. Altman and Robert D. Gano, Jr.</i>	108
AN IMPROVED STOMACH PUMP FOR PENGUINS AND OTHER SEABIRDS <i>R. P. Wilson</i>	109
A REVISED AGE/SEX KEY FOR MOURNING DOVES, WITH COMMENTS ON THE DEFINITION OF MOLT <i>Peter F. Cannell</i>	112
AN INEXPENSIVE BIRD ENCLOSURE <i>Eric K. Bollinger and James W. Caslick</i>	114
DIRECT CANADA-MEXICO RECOVERY OF A BANDED LEAST FLYCATCHER <i>David J. T. Hussell</i>	116
CROW PREDATION ON SPOTTED SANDPIPERS <i>Michael J. Hamas</i>	117
