NOTES AND NEWS	240

INSTRUCTIONS TO CONTRIBUTORS

All articles and notes should be submitted to the editor in duplicate, typed, double-spaced throughout (including tables, literature cited, etc.), and on one side only of good quality paper. Dot-matrix printers associated with home computers generally **do not** produce copy suitable for submission to the *Journal of Field Ornithology*. Xerographic copies are acceptable as long as they are not on heavy, slick paper. **Paper** on which manuscripts are typed and any **figures** submitted with the manuscript **must not exceed** 21.5 × 28 cm (8½ × 11 in). Figures are best submitted as glossy 13 × 18 cm (5 × 7 in) prints.

Manuscripts submitted to the *Journal of Field Ornithology* must be original and should not have been published, nor submitted for publication elsewhere, even in part.

Preparation of manuscript text.—Use a short, descriptive title. Leave ample margins on all sides, number each page, and do not use footnotes. Manuscripts with fewer than 5 literature citations should include citations within the text in abbreviated form; those with 5 or more citations should include a Literature Cited section at the end of the manuscript. The scientific name of an organism should be given the first time that the organism is mentioned and should be underlined—do not use italic type. Metric measurement units should be used. Measurement unit abbreviations should be those given in the fourth edition of the Council of Biology Editors Style Manual (1978). Each table title should be concise and should appear at the top of the table. All figure captions should be typed double-spaced one after another on a page or pages preceding the figures. Do not indicate figure number or print the caption on the face of the figure. The author's name and the figure number should be printed on the back of each figure.

Preparation of figures.—Figures should be uncluttered but should convey a maximum amount of information. They should not duplicate information presented in text or tables. In preparing figures, use "thin" rather than "fat" letters such that reduction of the figure will not result in the closure of spaces in letters such as "e" and "p." Lettering on a figure should not be typed.

Preparation of literature citations.—Literature citations should follow the styles used in the *Journal of Field Ornithology* beginning in the Autumn issue, 1980. Journal names should be abbreviated using the abbreviations found in *BIOSIS*. Unpublished papers or reports not generally available should not be cited unless a copy has been deposited in the van Tyne Library at the Museum of Zoology, University of Michigan, where they may be obtained for use by other researchers. Do not cite manuscripts that are in preparation.

CONTENTS

SEX AND AGE DIFFERENCES IN FALL MIGRATION OF NORTHERN HARRIERS By <i>Keith L. Bildstein, William S. Clark, David L. Evans, Marshall Field, Len Soucy, and Ed Henchel</i>	143
A COMPARISON OF TWO METHODS TO ASSESS THE BREEDING SUCCESS OF RING-BILLED GULLS By <i>Pierre Mousseau</i>	151
THE EFFECT OF DITCHING FOR MOSQUITO CONTROL ON SALT MARSH USE BY BIRDS IN ROWLEY, MASSACHUSETTS By <i>Jo Ann Clarke, Brian A. Harrington, Thomas Hruby, and Fred E. Wasserman</i>	160
SEASONAL ABUNDANCE, HABITAT USE, AND PERCH SITES OF FOUR RAPTOR SPECIES IN NORTH-CENTRAL FLORIDA By <i>Petra G. Bohall and Michael W. Collopy</i>	181
THE ORIGINS OF BANDED HERRING GULLS RECOVERED IN THE GREAT LAKES REGION By <i>D. Vaughn Weseloh</i>	190
PATTERNS OF SPRING AND FALL MIGRATION IN NORTHWEST FLORIDA By <i>Robert L. Crawford and Henry M. Stevenson</i>	196
DIFFERENCES BY AGE AND SEX IN THE SIZE OF SAW-WHET OWLS By <i>Peter G. Buckholtz, Martin H. Edwards, Boon G. Ong, and Ron D. Weir</i>	204
STATUS OF THE FERAL BUDGERIGAR IN FLORIDA By <i>Anne Shapiro Wenner and David H. Hirth</i>	214
FOOD HABITS OF FALL MIGRANT SHOREBIRDS ON THE TEXAS HIGH PLAINS By <i>Guy A. Baldassarre and David H. Fischer</i>	220
THE OCCURRENCE OF HIPPOBOSCID FLIES ON SOME SPECIES OF BIRDS IN SOUTHERN CALIFORNIA By <i>H. Elliott McClure</i>	230
GENERAL NOTES	
A TECHNIQUE FOR MAKING LEAST TERN DECOYS <i>Jack M. Fancher</i>	241
CAYENNE × SANDWICH TERNS NESTING IN VIRGIN ISLANDS, GREATER ANTILLES <i>Robert L. Norton</i>	243
FOOD BROUGHT BY BROAD-WINGED HAWKS TO A WISCONSIN NEST <i>Robert N. Rosenfield, Michael W. Gratson, and Lee B. Carson</i>	246
FIDELITY OF SEMIPALMATED PLOVERS TO A MIGRATION STOPOVER AREA <i>P. William Smith and Natalie T. Houghton</i>	247
RED-HEADED WOODPECKERS DEFEND OCCUPIED AMERICAN KESTREL NEST <i>Brian Toland and William H. Elder</i>	250
INTRASPECIFIC NEST PARASITISM IN WILLOW PTARMIGAN <i>Kathy Martin</i>	250
OBSERVATIONS ON DETRIMENTAL EFFECTS OF GREAT BLUE HERONS ON BREEDING BLACK TERNS <i>Betty-Ann Chapman and L. Scott Forbes</i>	251
OBSERVER RECOGNITION BY THE NORTHERN MOCKINGBIRD <i>Peter G. Merritt</i>	252
