AFO Mist Net Sales
Manomet Bird Observatory
P.O. Box 936
Manomet, MA USA 02345

Our black, tethered, nylon nets are the best grade we can obtain in Japan. We carry 6 and 12m styles, in a variety of mesh sizes. All our thread weights are 70 denier or higher, for maximum durability and less tangle of birds. Contact us for further details and price list.

"Since 1975 I have mist-netted birds in New Guinea and India, often under difficult conditions. My nets receive the roughest treatment. After trying several American brands, I found AFO nets to be the best for my field work. They cost more than lighter-weight nets, but give better service and last longer."
