The **RAPTOR RESEARCH FOUNDATION, INC.** is a non-profit corporation whose purpose is to stimulate, coordinate, direct, and conduct research in the biology and management of birds of prey, and to promote a better public understanding and appreciation of the value of these birds.

A major activity to date is the publication of *Raptor Research News* which has appeared quarterly since 1967 and which is bi-monthly beginning in 1970. Back issues are available at \$0.50 an issue. A new bibliographic service will be started in 1971 known as *Raptor Research Abstracts* to appear monthly with a detailed annual index.

The interests of the Foundation are indicated by the titles of the committees which have been or are in the process of being formed: Editorial, Captivity Breeding, Population, Banding, Bio-telemetry, Pathology, Pesticide, Ecology and Ethology, Systematics, Education and Conservation, Bibliography, International Coordination, Finance and Investment.

Membership in the Raptor Research Foundation is open to all who contribute; the *News* is sent to those who contribute a minimum of \$3.00 per year, the *News* and *Abstracts* for a minimum \$5.00 contribution. Since these minimal contributions barely cover costs, larger donations are necessary to finance expanded activities of the Foundation.
