The **RAPTOR RESEARCH FOUNDATION, INC.** is a non-profit corporation whose purpose is to stimulate, coordinate, direct, and conduct research in the biology and management of birds of prey, and to promote a better public understanding and appreciation of the value of these birds.

Publication has been a major area of activity. From 1967 to 1971 *Raptor Research News* was published; in 1972 publication was continued under a new name, *Raptor Research*. A series of occasional longer publications was started in 1971, *Raptor Research Report*, *Raptor Research Abstracts*, initiated in 1972, is a quarterly bibliographic service.

The Raptor Research Foundation has had a number of informal meetings and in 1971 sponsored the first of its conferences on specific topics on raptors. This one was entitled "Special Conference on Captivity Breeding of Raptors," and another planned for 1973 is entitled "Conference on Raptor Conservation Techniques."

The interests of the Foundation are indicated by the titles of its committees: Editorial, Captivity Breeding, Population, Banding, Bio-telemetry, Pathology, Pesticide, Ecology and Ethology, Systematics, Education and Conservation, Bibliography, International Coordination, and Finance and Investment.

MEMBERSHIP

Membership in the Raptor Research Foundation is open to all who contribute. *Raptor Research* is sent to all who contribute a minimum of \$3.00 per year; those who wish to receive both *Raptor Research* and *Raptor Research Abstracts* must contribute a minimum of \$5.00. These minimal rates have been established to encourage all who are interested to join. Other activities are financed by the generosity of members who contribute more than the minimum. Such contributions are encouraged.
