

THE RAPTOR RESEARCH FOUNDATION, INC. is a non-profit corporation whose purpose is to stimulate, coordinate, direct and conduct research in the biology and management of birds of prey, and to promote a better public understanding and appreciation of the value of these birds.

A major activity is publication. The quarterly *Raptor Research* prints research, reports, reviews, comments and news notes. The quarterly *Raptor Research Abstracts* summarizes and indexes literature on these birds. Longer papers or collections of papers are in *Raptor Research Report*.

Another important activity is the sponsoring of conferences. There have been three Captivity Breeding Conferences. The Conference on Raptor Conservation Techniques in March 1973 provided a very extensive review of current raptor research. The Proceedings will appear in issues of *Raptor Research* and *Raptor Research Report*.

Systems of information exchange on specialized areas have been initiated. Ninety "Breeding Project Information Exchange (BPIE) have appeared so far (available by subscription of \$3 sent to BPIE, Laboratory of Ornithology, Cornell University, 159 Sapsucker Woods Road, Ithaca, NY 19850). A new project, "Raptor Telemetry Information Exchange" (RTIE), begins with a research survey report (subscription \$1 from RRF). Additional special area information exchanges are anticipated soon.

Another active area has been the Pathology Committee. This group of professional veterinarians and others deals with the special health problems of raptors. They have conducted autopsies, treated ill birds, and provided consultation information as well as providing valuable information at several of our conferences.

MEMBERSHIP

Membership in the Raptor Research Foundation is open to all who contribute. *Raptor Research* is sent to all who contribute a minimum of \$6.00 per year; those who wish to receive both *Raptor Research* and *Raptor Research Abstracts* contribute an additional \$4.00. Memberships should be sent to: Edward S. Freienmuth, RRF Membership Services, RR 3, Box 301, Durango, Colorado 81301.

PUBLICATIONS

All previous publications are still available from RRF Membership Services. *Raptor Research News*, 1967-1969, Vols. 1-3, 4 issues each, \$2.00/vol.; 1970-1971, Vols. 4-5, 6 issues each, \$3.00/vol. *Raptor Research*, 1972-1973, Vols. 6-7, 4 issues each, \$4.00/vol. Supplement to Vol. 6, \$2.00.

Raptor Research Abstracts, Vol. 1, 1973, 4 issues, \$2.00.
Raptor Research Report

No. 1. Richard R. Olendorff, "Falconiform Reproduction; A Review. Part 1. The Pre-nestling Period." February 1971, 111 pp., \$2.50 (\$2.00 to members).

No.2. Management of Raptors (Proc. Rapt. Cons. Tech. Part 4), August 1974, 146 pages, \$5.00 (\$4.00 to members).

No. 3. Population Status of Raptors (Proc. Rapt. Cons. Tech. Part 5) in press. \$6.25 (members \$5.00).

CONTENTS

SCIENTIFIC PAPERS

A Fully Automated Egg for Telemetering Adult Attentiveness and Incubation Temperatures—David H. Ellis and Joel R. Varney . . . 73

Field Techniques in a Study of the Behavior of Peregrine Falcons—R. Wayne Nelson 78

Advantages and Disadvantages of the Use of Rotor-winged Aircraft in Raptor Surveys—Clayton M. White and Steve K. Sherrod . . . 97

An Automated Radio Tracking System for Biotelemetry—Mark R. Fuller and John R. Tester 105

An Invasion of Goshawks—P. B. Hofslund 107

Notes on Nesting Great Horned Owls in Southern Arizona—William J. Mader 109

Late Summer Food Habits of Adult Burrowing Owls in Central Utah—Dwight G. Smith and Joseph R. Murphy 112

REPORTS, REVIEWS, AND OPINIONS

Report: Proceedings of the Conference on Raptor Conservation Techniques, Fort Collins, Colorado, 22-24 March 1972.

Part 4. Raptor Research Techniques—edited by Byron E. Harrell 116

NOTES, NEWS, AND QUERIES

[None in this issue.]
