

A Telemetry Receiver Designed with The Researcher in Mind

What you've been waiting for!

Finally, a highly sensitive 999 channel synthesized telemetry receiver that weighs less than 13 ounces, is completely user programmable and offers variable scan rates over all frequencies. For each animal being tracked, the large LCD display provides not only the frequency (to 100Hz) and channel number, but also a 7 character alphanumeric comment field and a digital signal strength meter. Stop carrying receivers that are the size of a lunch box or cost over \$1500. The features and performance of the new R-1000 pocket sized telemetry receiver will impress you, and the price will convince you.

Other Features Include:

• Factory tuned to any 4MHz wide segment in the 148-174MHz Band • Very high sensitivity of -148dBm to -150dBm • Illuminated display and keypad for use in low light or darkness • User selectable scan rates from 1-30 seconds in 1 second steps • Rechargeable batteries operate the receiver for 12 hours and can be replaced with standard AA Alkaline batteries in the field. Both 12vdc and 110vac chargers are included.

• 6.1" (15.5cm) high,
2.6" (6.6cm) wide,
1.5" (3.8cm) deep.

• 3 year warranty

• 1 day delivery

Buteo Books is the largest retailer of Ornithology books in North America, with over 2,000 in-print titles, and hundreds of out-of-print titles available.

NEW, IN-PRINT ORNITHOLOGY

The most popular authors, cutting edge studies, and unusual subjects. We stock scientific texts, hard-to-find foreign books, and entertaining reading; plus audio, video, and software.

RARE AND OUT-OF-PRINT ORNITHOLOGY

Buteo Books has a wide selection of used, out-of-print, and scarce titles available, including classics on birds of prey and falconry. Our stock changes weekly, so call to check availability.

BIRDS OF NORTH AMERICA SERIES

This series consists of individual species accounts for each of the species which breed in the United States and Canada, including diurnal and nocturnal raptors. These illustrated reviews provide comprehensive summaries of the current knowledge of each species, with range maps and extensive lists of references.

As the exclusive distributor of print copies in this series, Buteo Books is pleased to offer these accounts for \$7.50 each. All 716 profiles are listed in taxonomic order on our website.
