INFORMATION FOR AUTHORS

AMERICAN BIRDS welcomes the submission of articles and photographs for publication.

Our major areas of interest are the changing distribution, population, migration, and rare occurrence of the avifauna of North America, including Middle America and the West Indies. We solicit articles on problems in field identification, in our "Site Guide" series of birding locales, in our "Centers of Learning" series that profiles institutions concerned with ornithology, photo essays of unusual interest, or single photographs illustrating identification features, rare occurrence, unusual locale or habitat.

For a "Work in Progress" column, we welcome notices of research projects seeking field reports or other collaboration; we publish advance notices of important conventions, meetings, symposia, seminars, and conferences or other ornithological news. We are looking for more articles on the techniques of birding, bird photography or sound-recording, on the order of "On the Art of Estimating Numbers," (*AB* 26: 706-12).

All submissions will be carefully considered, but authors considering major submissions should correspond with the editors first. AMERICAN BIRDS publishes papers of a technical nature but only when written in a less-than-technical, easily readable style: i.e., no complicated equations, lengthy tables, or complex graphs. Major articles should be limited to 3000 words; exceptions may be agreed upon after consultation. All material submitted should be original, and previously unpublished. Manuscripts should follow accepted rules of format and style, be typewritten, double-spaced, on white paper, with generous margins. Photographs should be glossy black-and-white or color prints, clearly marked with author's name and address. We require the original typescript and one carbon copy. All manuscripts will be acknowledged, but authors must recognize that a backlog exists which may entail delayed publication after acceptance.

For further information address the editors at the American Birds offices, 950 Third Avenue, New York, N.Y. 10022.

AMERICAN BIRDS is published six times a year. Editorial and business offices are located at 950 Third Avenue, New York, N.Y. 10022. Subscription: \$8.00 a year for the U.S.A., \$8.50 Canada, \$9.00 foreign. Single copies: Christmas Bird Count (July), \$4.50 per copy; Fall Migration (March), Winter Season and Winter Bird Population Study (May), Spring Migration (September), Nesting Season (November) and the Breeding Bird Census (January), \$1.50 per copy. Checks and money orders should be made payable to AMERICAN BIRDS. Second class postage paid at New York, N.Y. and additional Post Offices. Copyright© 1976 by the National Audubon Society, Inc.

Postmaster: if undeliverable, please notify American Birds on Form 3579 at 950 Third Avenue, New York, N.Y. 10022.

The Table of Contents for this issue will be found on the back cover

MINNEHAHA WILD RICE

Longfellow's legend of Hiawatha and Minnehaha is a poetic classic of the Sioux and Chippewa. Long before Longfellow, these Indians had found wild rice, *mahnomonee*, and made it the basic vegetable in their diet.

Minnehaha's people considered wild rice a perfect food: highly nutritious and richly delicious. They were right: 100% natural wild rice has five times the iron of white rice, twice the potassium and protein, and ten times the vitamins B-1 and B-2.

Once, wild rice grew from the Gulf of Mexico to Hudson's Bay, from the Atlantic to the Rockies. Today, it grows only along the Minnesota-Canada border.

Minnehaha Wild Rice is the finest quality of this rarest of grains. Enjoy it with fowl and game, fish and beef... the perfect touch at any meal.

We have held the price of our wild rice for three years: \$5.90 per pound, in five-pound shipments, *postpaid*.

Each pound is poly-sealed and placed in its own distinctive muslin bag, with our recipe brochure.

So fine a food makes a grand gift. Free gift card and mailing—attach signature instructions and address list to your order.
