

## INDEX      VOLUME 31 —1977

*Prepared by Jeanne Gart*

*The following is an index of those observations appearing in the four seasonal issues (March, May, September, November) considered sufficiently noteworthy by the editors to be printed in boldface type. Items corrected by Corrigenda, whether originally boldfaced or not, are also indexed, and followed by the letter (C). There are 846 entries in this index.*

# Water Birds of California

**Howard L. Cogswell**

Illustrated by Gene M. Christman

The birds that inhabit the sea coast, river banks, and lake shores of California include many intriguing species. Essential to all serious bird waters, this is a practical, convenient guide to their recognition, habitats, feeding, migration, and conservation.
