Index of Boldfaced Birds

The following is an index of those observations appearing in the four seasonal issues (March, May, September, November) considered sufficiently noteworthy by the editors to be printed in boldface type. Items corrected by Corrigenda, whether originally boldface or not, are also indexed, and followed by the letter (C).

ALASKAN BIRDING

One of Alaska's only lodges where you join a year-round resident family. Sincere, informal hospitality in a cradle of spectacular sea and mountain panoramas. Gateway to the Kenai Fjords, this roadless area with McKinley and the Probluffs is the place in Alaska for birders, naturalists, photographers and wilderness enthusiasts. The world's 2nd largest tides, prolific sea bird and marine productivity set this area apart from all others. Smoking volcanoes, blue ice glaciers, nesting eagles, sea otter, seal and sea lion, whales. Untracked beaches, forest trails, help pull crab pots, catch salmon, trout, visit our remote brown bear photographic camp near McNeil River Sanctuary (world's largest concentration) or mountain lake fly-in camp. An in-depth experience with Mike McBride Reg. Guide, Naturalist. Bush plane fly-in 5 days with guide \$1500.
