

town Boston. 38(2)177.  
 Owl, Great Gray: extraordinary winter invasion of at least 250 birds in Quebec Region. 38(3)298.  
 Owl, Great Gray: unprecedented irruption of 419 birds into s. Ontario allows for behavioral observations. 38(3)312.  
 Owl, Great Gray: Western Great Lakes Region hosts largest-ever invasion. 38(3)320.  
 Owl, N. Saw-whet: breeding distribution knowledge incomplete owing to nocturnal habits and limited birder interest in Pine Barrens habitat. 38(5)891.  
 Palearctic species: N. Lapwing, Com. Green-shank, and Ruff winter in e. Newfoundland. 38(3)294.  
 Passerine species: n. California treated to first records of Rustic Bunting and Brambling. 38(3)355.  
 plover species: breeding distribution of Com. Ring-billed and Semipalmated plovers in Alaska requires closer scrutiny. 38(6)1053.  
 Plover, Piping: Saskatchewan census finds a total of 353 pairs, 67 additional individuals, and 32 other shorebird species. 38(6)1032.  
*Pterodroma* sp.: bird present at Salton Sea most likely Cook's Petrel. 38(6)1061.  
 Ruff: eleven reports from Ontario Region suggest nesting activity in Canada. 38(5)905.  
 Rutgers University: campus joins New York's Central and Forest parks, and Philadelphia's Carpenters Woods as avian oasis in urban region. 38(3)301.  
 Sandpiper, Semipalmated: late molt a factor in distinguishing species from W. Sandpiper. 38(2)183.  
 Sparrow, Black-throated: birds appear north of normal range in Washington, Idaho, and British Columbia. 38(6)1043.  
 Sparrow, Henslow's: clear-cut pocosins of North Carolina Coastal Plain support numerous colonies. 38(6)1011.  
 Sparrow, Lark: breeding population firmly established in North Carolina Sandhills, and possibly in South Carolina and Georgia as well. 38(6)1010.  
 Stilt, Black-necked: Oregon invasion attributed to record floodwater levels in the n. Great Basin. 38(5)949.  
 Stint, Little: fall arrival in Nova Scotia represents third Canadian record. 38(2)176.  
 Stonechat: first North American record, of Siberian race, seen in New Brunswick. 38(2)178.  
 Swallow, Cave: dramatic range expansion in s. Texas. 38(6)1039.

Tern, Elegant: unprecedented northern invasion through Northern Pacific Coast Region caused by *El Niño*. 38(2)238.  
 Vireo, Black-capped: Texas colonies threatened by cowbird parasitism. 38(6)1039.  
 Vireo, Yucatan: first United States record in s. Texas. 38(5)934.  
 warblers: southerly air flow and attractive foliage at St. John's, Newfoundland, apparently responsible for reverse migration of several species. 38(2)178.  
 Whistling-Duck, Black-bellied: population explosion on the Upper Texas Coast. 38(2)221.

## Referee Roster

THE EDITORS of *American Birds* gratefully acknowledge the following individuals who served as manuscript referees during 1984. Their expertise has proved invaluable in maintaining the high standards of this publication. Many thanks to all. — John W. Aldrich, Dean Amadon, Lawrence G. Balch, Carl E. Bock, Roger B. Clapp, Thomas H. Davis, Jr., Robert W. Dickerman, R. L. Downing, William H. Drury, John T. Emlen, Davis W. Finch, John W. Fitzpatrick, Daniel D. Gibson, W. Earl Godfrey, George A. Hall, C. Stuart Houston, Frances C. James, Joseph R. Jehl, Jr., Herbert W. Kale, II, Brina Kessel, John C. Kricher, Guy McCaskie, Brooke Meanley, Eugene S. Morton, J. P. Myers, Ron Naveen, Robert W. Newman, Robert L. Norton, J. V. Remsen, Robert S. Ridgely, Chandler S. Robbins, Thomas H. Rogers, Jay Sheppard, Scott A. Sutcliffe, William Threlfall, Phil Unitt, Robert F. Whitcomb, Sanford Wilbur, Richard Wilson, Janet Witzeman, Dale A. Zimmerman.

## Ben Feltner's Peregrine Tours

### PERU June 21-July 16, 1985

### ARGENTINA October 25-November 14, 1985

In 1985 Peregrine inaugurates two new Latin American tours. Each will feature an eminent leader who has designed the tour. Paul Donahue will guide you through Peru, which has more species of birds than any other country in the world. Paul, formerly naturalist at the Explorer's Inn, has led numerous Peru tours and has been tape-recording and painting Peruvian birds for years. Roberto Straneck, an Argentinian ornithologist with the Museum of Natural History in Buenos Aires, will lead you from tropical rain forests to the sub-Antarctic shores of Tierra del Fuego. Both tours will be limited in size, with our own Bob Behrstock as co-leader if the number of participants warrants. Please write us for detailed itineraries of these or any of our other fine tours.
