E L c l a s s

The Ultimate Birding Glass...
No Compromises

New "E L Class" birding binoculars represent a radical breakthrough in premium optical technology from Swarovski Optik. In optical performance...wide field of view with great depth of focus, weight—27.5oz, close focus—6ft, and a narrow tube "Grip-ability" for hand comfort, perfection was achieved. No compromises were allowed in the E L Class design* or manufacture.

Available in 8.5 X 42 and 10 X 42 specifications,

the new E L's have rugged, light weight magnesium alloy housings, and an entirely new optical system delivering extreme image sharpness and brilliant, neutral color transmission.

There are no other birding binoculars on the planet as good as the new E L's from Swarovski. See what no compromising means for your birding. Call 800-426-3089 or visit www.swarovskioptik.com for more information.

ON THE COVER

One of the major avian events of fall 1999 was the appearance of Cave Swallows throughout the northeastern portion of North America. These two birds roosted in an old Barn Swallow nest at the Visitor Centre at Pt. Pelee, Ontario, 4 Nov 1999. The province had but two prior records, yet nearly 50 individuals were recorded there in early November 1999 and dozens more were noted during that time from Québec to South Carolina, including 35+ at Cape May, New Jersey. BirdBase *Software for a serious birder* BirdArea

Nearly all the ABA birders reporting life lists over 6000 who use computers use our software. It is the software most widely used by all those over the 1400 bird threshold. Why? Because it lets them easily keep track of birds seen and also helps them see new ones with its ability to list the birds of any major world area, labeling all endemics and birds previously seen in the area, outside it, or both. **View an on-screen demonstration at <http://members.aol.com/sbsp>**

BirdBase can switch between displaying all the birds in James Clements' world list or any selection of them, when recording sightings. It accepts 5000-word sighting notes. And it instantly updates any number of annual/life lists (e.g., yard, county, state, nation, ABA region/area, world). These can give details of all sightings or of only each bird's first sighting, or just name birds seen. BirdBase can list all sightings of a bird, list in date-order all trips or first sightings of all birds, tabulate Christmas counts, etc. *It handles all changes in the world list, and puts them in sightings already recorded*

BirdArea can list in detail the range of any bird. And it can produce check lists of the birds of all major world areas (i.e., U.S. states, Canadian provinces, nations, ABA regions/areas, important islands) with endemics labeled. Printouts allow multiple check marks and notes. Shawneen Finnegan's annually-updated ranges come from *more than 800 publications in 10 languages and from many experts birding the areas*

If BirdBase is used BirdArea can label birds already seen on each check list, make lists of birds not already seen, and find any recorded sighting in which a bird is outside its known range. If BirdArea is used BirdBase can switch to displaying only birds whose ranges include any of the world areas when recording sightings of a trip to that area. *This makes recording very much easier and calls to attention out-of-range sightings*

BirdBase is \$59.95 + \$4.00 shipping; so is BirdArea. Buy both for \$99.95 + \$6.00. Or start with BirdBase and N. American birds for \$39.95 + \$3.00. Add 8% for CA orders. Double overseas shipping. Visa, MasterCard OK. For Windows 3.X, 9X, NT

AviSys™ 4.56 for Windows

As Simple As You Wish ~ As Powerful As You Need

New! Clements' Fifth Edition 2000 World Taxonomy!

The Leader ~ A Giant Step Ahead Of All The Rest

AviSys is a full-featured worldwide database and reporting system for serious birders. It can be enhanced by adding the Official Shawneen Finnegan Worldwide Nation Checklist Add-On (as provided in BirdArea by Santa Barbara Software Products), providing the most authoritative, highest quality, and most up-to-date checklists of the 254 nations of the world. The checklists are tightly and seamlessly integrated with AviSys, providing beautiful screen and printed output with seen, seen-in-nation, and endemic markers, and instant worldwide nation-by-nation range query for any species. AviSys produces seen reports, checklists and hit lists of any nation or state, any group of nations or states, and all ABA Regions and Areas.

You can instantly reduce the on-screen list from a world or NA list to the checklist of any nation, state, county, wildlife refuge, etc., whether provided by AviSys or created by you. Deal with only the birds you need. Rotate through modes instantly.

One AviSys user wrote: "OUTSTANDING! I have been a computer professional for over 30 years and must congratulate you on generating state-of-the-art, convenient to use, efficient and reliable software." Another says: "AVISYS IS A BLAST!" Precisely our objective.

- * **Unlimited Number of Lists:** all major geographic lists **automatically updated**. Example: assigning a sighting to your yard also updates your City, County, State, Nation, Continent, worldwide ABA Area, worldwide ABA Region, and Life lists.
- * **Full ABA N.A. Checklist, Clements World Checklist, and Official Tony White State/Province Checklists, all fully integrated** with screen and report facilities.
- * **The Fastest, Easiest and Most Flexible** sighting entry—just click on the birds. AviSys has absolutely unmatched search facilities, including **World Band Codes!**
- * **Unlimited Reporting and Listing** by date range, season, geography, species, habitat, behavior, sex, nesting status, heard-only, photographed, key-words, etc.
- * **Census Spreadsheets** for population, sighting, CBC, and ornithology studies.
- * **Supports Thayer's Birds of NA CD-ROM while working on your data.**
- * **Free! NABA Butterfly, Dragonfly, Reptile/Amphib. data sets on our web site!**
- * **BirdBase users -- ask for our free comprehensive data conversion facility.**
