SPRING MIGRATION

SWAROBRIGHT®

THE NEW STANDARD FOR BRIGHTNESS IN BINOCULARS

Like our renowned E L Binoculars, the new SLC Class of 42, 50 and 56 MM binoculars incorporate unique interference mirrors in their roof prism systems that reflect 99.5% of the available light. SWAROBRIGHT® mirror coatings deliver the highest image brightness and color contrast available from any premium binocular at a competitive price.

With SWAROBRIGHT®, you will receive as much as 5% to 10% more light transmission from our new SLC Binoculars. That's more total light transmission and contrast than any other premium binocular on the planet except our E L Class!

Whatever image you're looking at, from edge to edge it will be brighter, sharper and the colors more true to life than you've ever seen before. But, don't take our word for it. See the New Standard for yourself! Visit www.swarovskioptik.com or call 800-426-3089 for more details and the dealer nearest you.

- 381 Pictorial Highlights

Under appropriate meteorological conditions, trans-Gulf migrants such as this Hooded Warbler can materialize far to the west of typical range. At least 15 Hooded Warblers were found in the Southern Pacific Coast Region this spring, the biggest showing since 1992; this male was near Desert Center, Riverside County on 13 May. *Photograph by Larry Sansone.*

NORTH AMERICAN BIRDS

is published by the American Birding Association.

The mission of the journal is to provide a complete overview of the changing panorama of our continent's birdlife, including outstanding records, range extensions and contractions, population dynamics, and changes in migration patterns or seasonal occurrence. We welcome submission of papers in these areas; papers and other communication should be sent to the Colorado Springs address below.

ZEISS

Victory 8x40

Victory 10x40

Victory 8x56

Victory 10x56

It's twilight, with the sighting of a lifetime in range. Victory binoculars were made for this moment. Thanks to patented lens and prism coatings, they transmit more light to the eye. So birds appear brighter in low light. All four Victory models are backed by a lifetime warranty. For a Zeiss retailer near you, call 1-800-338-2984 or visit zeiss.com.

*Based on blue, red and green light transmission tests. Data on file.

Tours for 2002

ABA - E N D O R S E D

**Jan 28 to Feb 9 - Winter Wonders of Japan**

Huge concentrations of cranes, eagles & geese; Asian specials; with Chris Cook & Tetsuji Hidaka
Siemer & Hand Travel, (800) 451-4321; (415) 788-4000; travel@siemerhand.com

Feb 10 to 23 - Belize and Tikal

Bird with superb, enthusiastic local & U.S. guides; see up to 300 species while supporting local conservation.
Wildside Birding Tours, (888) 875-9453; (610) 363-3033; tours@adventurecamera.com

Feb 23 to Mar 7 - Cruise the Lower Caribbean

Tropical forest birding at its most comfortable; 200 species last year including many psittacidae, raptors and tanagers. **Clipper Cruise Line**, (800) 325-0010, x275; (314) 727-2929, x275

Mar 23 to 31 - Dominican Republic

27 endemics and many more Caribbean species. Baoruco Mtns. & SW lowlands. Small group; locally resident U.S. guide.

OBServ Tours, Inc. (615) 292-2739; observinc@aol.com

April 15 to 28 - Botswana

Birding safari to Mashatu, Chobe & Okavango. Extraordinary birding, exciting views of mammals; excellent accommodation.

Siemer & Hand Travel, (800) 451-4321; (415) 788-4000; travel@siemerhand.com

Apr 27 to May 11 - Wales & Norfolk

Bird the mountains of Wales, the plains and marshes of Norfolk; expert local guides; expect 175 species.
Celtic Bird Tours, tel (44)-1656 645 709; Birds@celtictours.org.uk

May 19 to Jun 1 - Finland & North Norway

Join 50 million breeding pairs of birds in the Land of the Midnight Sun; excellent local guides; warm hospitality.
Siemer & Hand Travel, (800) 451-4321; (415) 788-4000; travel@siemerhand.com

May 20 to 26 - Presqu'ile, Ontario

A trip for newer birders with veteran birder & instructor in highly diverse habitat of this peninsular park. 150 species likely.

Nature Travel Holidays, (888) 305-3955; (613) 531-8105; info@naturetravel.net

Aug 4 to 18 - Cruise Alaska to Siberia

Bird the Pribiloffs, the Aleutian chain to Attu; Bering Island & Russia's Kamchatka Peninsula; expert ABA guides.
Clipper Cruise Line, (800) 325-0010, x275; (314) 727-2929, x275

Oct 6 to 12 - Brazil Special Expedition

Join international expedition to refind Kinglet Calyptura last seen in 1996. Extensions to Pantanal, etc.
Siemer & Hand Travel, (800) 451-4321; (415) 788-4000; travel@siemerhand.com

October & November - Two Trips to Australia

Two affordable 15-day trips offer springtime experience in one of world's most interesting birding destinations.
Nature Travel Holidays, (888) 305-3955; (613) 531-8105; info@naturetravel.net

Nov 15 to Dec 1 - New Zealand

See unique endemics of these delightful isles; expert local guides; several boat excursions including pelagic birding. **Talon Tours**, (707) 795-7547, talontours@yahoo.com

**SHORT TRIPS FOR TARGET SPECIES****Pacific Northwest Pelagic Trips**

The Bird Guide, (503) 844-6876; guide@teleport.com

British Columbia, Nova Scotia, Maine, Texas, Colorado, California

OBServ Tours, Inc. (615) 292-2739; observinc@aol.com

How to Read the Regional Report

STANDARD ABBREVIATIONS USED IN THE REGIONAL REPORTS

Abbreviations used in place names

In most regions, place names given in *italic* type are counties. Other abbreviations:

A.F.B.	Air Force Base
B.B.S.	Breeding Bird Survey
C.B.C.	Christmas Bird Count
Cr.	Creek
Ft.	Fort
Hwy	Highway
I.	Island or Isle
Is.	Islands or Isles
Jct.	Junction
km	kilometer(s)
L.	Lake
mi	mile (s)
Mt.	Mountain or Mount
Mts.	Mountains
N.F.	National Forest
N.M.	National Monument
N.P.	National Park
N.W.R.	National Wildlife Refuge
P.P.	Provincial Park
Pen.	Peninsula
Pt.	Point (not Port)
R.	River
Ref.	Refuge
Res.	Reservoir (not Reservation)
S.P.	State Park
Twp.	Township
W.M.A.	Wildlife Management Area
W.T.P.	(Waste) Water Treatment Pond(s) or Plant

Other abbreviations and symbols referring to birds:

ad. (ads.)	adult(s)
imm.	immature
juv. (juvs.)	juvenile; juvenile(s)
ph.	photographed
sp. (spp.)	species (plural)
subad. (subads.)	subadult(s)
tape	audio tape-recorded
v.t.	videotaped
†	written details were submitted for a sighting
*	a specimen was collected

Birds have no respect for range maps. Bird distribution in North America is constantly changing, as birds expand their ranges into new areas, disappear from former strongholds, or alter their patterns of migration.

Our knowledge of bird distribution is also changing constantly, as discoveries continue to come in. Keeping up with all these developments is a challenge for ornithologists, conservationists, and birders.

The Regional Reports, published four times a year, contain a wealth of information about North America's dynamic birdlife. When seeing the reports for the first time, they might appear difficult or technical, but they are not; anyone with any birding experience will find the reports easy to understand. We invite you to read the report from your area of the continent; we predict that the information there will alternately surprise you and confirm your ideas about birdlife in your region. To help you get started, here are answers to some questions that may occur to first-time readers.

What kind of information is included? Do the Regional Editors just report everything that's reported to them?

Regional Editors do not report every sighting of every bird. Such a list would be huge, unwieldy, and not very useful. Instead, they solicit reports from as many observers as possible, screen the records for accuracy, choose those that are most significant, look for trends and patterns of occurrence, connect scattered bits of information, and ultimately come up with a concise, readable summary of the real bird news—the important avian events and trends of the season throughout their region.

Why are there so many abbreviations in the text?

We abbreviate some frequently-used words and phrases to save space. Most of these are easy to understand and remember. (See the list of abbreviations at the end of this section.) In addition to these standard abbreviations, some Regional Editors use shortened versions of the names of some birding hot spots; they list these local abbreviations in a separate paragraph, just after their introductory comments and just before their main species accounts.

What do the initials in parentheses mean?

Most records published in each report will be followed by initials, to indicate the source: the person(s) who found or reported the bird(s) mentioned. The initials may be followed by *et al.* (short for *et alia*, meaning “and others”), or preceded by *fide* (literally, “by the faith of”—meaning that this is a second-hand report, and the person initialed is the one who passed it along to the Regional Editor). A dagger (†) before the initials means that this person turned in written details on the sighting.

There are good reasons for giving credit to the observers involved. Readers may be reassured about the accuracy of surprising sightings if they know who the observers were; researchers who want to know more about a certain record may be able to contact the observers directly. In some cases, when a bird was seen by many birders, the Regional Editor may add “v.o.” (for “various observers”) or “m.ob.” (for “many observers”) after the first sets of initials.

Who are the people who send in their sightings?

All observers are invited to send in notes to their Regional Editors: details on rare sightings, species that were scarcer or more numerous than usual during the season, unusual concentrations or migration, and so on. Reading the reports for your region for a few seasons is the best way to find out what kinds of information are desired. Although the Regional Editors cannot cite every record that they receive, every contributor helps them to produce a more thorough and accurate summary.

Why are some bird names in heavier or blacker type?

We use **boldface** type to draw attention to outstanding records of rare birds. General categories of birds that the Regional Editors would place in boldface would include: any species that has been recorded fewer than 10 times previously in a given state or province; any new breeding record for a state or province, or any bird totally outside established patterns of seasonal occurrence. (For the most part, records are not boldfaced unless they are backed up with solid details or photographs.) Birders who like to know about rare birds (and most of us do) can get a complete run-down of the season's outstanding rarities by scanning all the Regional Reports for those boldfaced birds.

Why are some of the place names in italic type?

In most of the regional reports, place names given in *italic* type refer to counties. (Italics represent parishes in Louisiana, and in parts of Ontario they may refer to districts or regional municipalities.)

What are the boxes in the text marked “SA”?

“SA” stands for “Special Attention” (and, by coincidence, is pronounced “essay”). The purpose of the boxed essays is to draw attention to particularly noteworthy phenomena or trends. Likely SA topics include new population trends or new bird distribution patterns, unusual invasions or migration events, field research yielding new data, specific conservation problems that have an impact on birdlife, or detailed discussion of an outstanding (or perplexing) rare bird record. Experienced readers of *North American Birds* make it a point to flip through all the Regional Reports and read all the S.A.s, even in regions where they do not read the rest of the text.

ABA Events 2002
Mark your calendars now!

18-22 January

Regional Conference—Miami, Florida

Escape the winter doldrums, see some great birds, and get an early start on your 2002 "year list". We'll visit Everglades National Park, Loxahatchee NWR, and Shark Valley, plus many more prime birding areas! For Program and registration info, call Nancy Hawley at 800-850-2473 ext. 233; or register online at www.americanbirding.org/convtours/convenreg.htm

10-16 June

**Annual Convention
 Duluth, Minnesota**

Prime birding habitats include the Boreal Forests, grasslands and marshes, and mixed deciduous woodlands. Kim Eckert, author of *A Birder's Guide to Minnesota* and a VENT tour leader, will be coordinating the field trips. As always, top field experts will conduct our programs and workshops, and we'll enjoy entertaining, informative evening programs. Program and registration will be published in the January 2002 issue of *Winging It*, or call Nancy Hawley at 800-850-2473 ext. 233.

The Princeton Guides

Thrushes

424 pages. 60 color plates.
36 line illustrations. 160 maps. 6 x 9.
Cloth \$49.50 *

Crows and Jays

216 pages. 30 color plates.
120 color maps. 6 x 9.
Paper \$24.95 *

Pipits and Wagtails

360 pages. 26 color plates.
250 color photos. 30-plus color maps.
Over 100 line illustrations. 6 x 9.
Cloth \$49.50 *

- ▶ Comprehensive identification guide to every family member.
- ▶ Full-color plates.
- ▶ Detailed text describes appearance, voice, subspecies, moult, and general biology.
- ▶ Color maps show distribution of each species.
- ▶ Unsurpassed, up-to-date reference books.

Princeton Illustrated Checklists

Birds of Southern South America and Antarctica

304 pages. 97 color plates.
Over 1,000 maps. 5 x 7 1/2.
Paper \$24.95 **

Birds of Eastern Africa

304 pages. 96 color plates.
Almost 1,500 maps. 5 x 7 1/2.
Paper \$24.95 **

Birds of Southern Africa

320 pages. 84 color plates.
Over 1,000 maps. 5 x 7 1/2.
Paper \$24.95 **

- ▶ Each guide illustrates every bird species in the region.
- ▶ Handy size for field use.
- ▶ Organized for quick identification.
- ▶ All species pictured in full color.
- ▶ Informative notes describe each bird's physical, behavioral, and vocal characteristics.
- ▶ Adult male shown for all species; female or juvenile shown for most species.
- ▶ Shaded distribution maps show range and frequency of every species.
