American Birding®
ASSOCIATION

Representing the first verified American Birding Association Area record was this Loggerhead Kingbird at Fort Zachary Taylor State Park, Key West, Florida 8-27 March 2007. Its blackish cap and nape contrasting with grayish back, bold crest, prominent white-edged wing coverts and tertials, and white underparts indicate that this individual was one of three subspecies: from the Cuban mainland, the Island of Youth, or Grand Cayman Island. *Photograph by Carl Goodrich.*

The Friends of *North American Birds*

SUPPORT THE FUTURE DEVELOPMENT
OF *NORTH AMERICAN BIRDS*,
THE ABA'S JOURNAL OF
ORNITHOLOGICAL RECORD

Since its inception, the fund has allowed for many improvements to the journal's look and feel. The journal is now mailed in a protective wrapper to insure its delivery in one piece. The content has benefited from an increase in page count which has allowed for additional articles with even more detailed analysis. The amount of color pages has increased which has allowed for expanded Pictorial Highlights and an occasional Photo Salon.

**All of this has been made possible
with your generous contributions.**

There are more plans in the works for future issues but the fund does need your continued support. To become a "Friend of NAB", simply donate \$50 or more. Each "Friend of NAB" will be recognized annually in the first issue of each volume of *North American Birds*.
