Leg Gauge: For proper determination of band sizes. Accurately machined slots correspond to inside diameter of all band sizes from 1 thru 9. The easy-to-use gauge allows pre-selection of correct band, thus eliminating the difficult job of removing improper-fitting bands. Made of durable plastic, 2-1/2"x5-1/2", with engraved lettering. Price: \$6.00 ppd. in U.S.A.

 Manomet, MA USA 02345

Our black, tethered, nylon nets are the best grade we can obtain in Japan. We carry 6 and 12m styles, in a variety of mesh sizes. All our thread weights are 70 denier or higher, for maximum durability and less tangle of birds. Contact us for further details and price list.

"Since 1975 I have mist-netted birds in New Guinea and India, often under difficult conditions. My nets receive the roughest treatment. After trying several American brands, I found AFO nets to be the best for my field work. They cost more than lighter-weight nets, but give better service and last longer."

--Dr. Bruce M. Beehler, Smithsonian Institution

Identification Guide to North American Passerines: A compendium of information on identifying, aging and sexing all 276 species.
