

## WESTERN FIELD ORNITHOLOGISTS MEMBERSHIP AND SUBSCRIPTION ROSTER

At the 1991 annual meeting in Bend, Oregon, WFO's board of directors decided to publish the organization's membership roster in *Western Birds*. Publication of such a roster serves several purposes. It informs the members of who and where their colleagues are, it informs readers of which libraries carry the journal, and it allows us to recognize our life, supporting, and contributing members. Even more importantly, it informs us of who are *not* our members, so we can facilitate the organization's growth. With this roster, think of nonmember colleagues who might benefit from the journal, to whom to give gift memberships, libraries to encourage to take the journal, and your favorite institution that would benefit from a gift subscription. Especially in this day of government budget crises and cutbacks, such a gift subscription to a library, college, or museum could make the difference in making the journal available to the young students on whom the future of WFO, ornithology, and bird conservation depends. Some institutions, for example, San Diego State University, have already had to cancel their subscriptions because of shrinking budgets.

The roster, updated to June 1992, is organized by nation, state or province, and, in California, county. The number in the column at the left specifies the volume of *Western Birds* with which the membership expires. Letters specify life (L), supporting (S), contributing (C), family (F), complimentary (M), and exchange (X) members. Complimentary memberships are intended to ensure that the contents of *Western Birds* are indexed in such fundamental resources as *Zoological Record*, *Biological Abstracts*, and *Recent Ornithological Literature*. Organizations that are exchange members send their publications in exchange for *Western Birds*. Since 1988 these publications have been received by the scientific library of the San Diego Natural History Museum, P. O. Box 1390, San Diego, CA 92112, which is open to the public during usual business hours (please call 619-232-3821 ext. 224 for an appointment). Before 1988, these publications were received by Point Reyes Bird Observatory, 4990 Shoreline Highway, Stinson Beach, CA 94970, where they remain.
