 SYNONYMS.

Following is a list of the synonyms applied to various members of the Thrush family in different localities:

*Turdus mustelinus*, Wood Thrush—Flute Bird and Swamp Robin in New York, and is reported by Burroughs as called "Swamp Angel" by the people in the Adirondack region, on account of being found, during the period of song, in the deepest and most remote forests, usually in damp and swampy localities. Also known as Song Thrush and Wood Robin in District of Columbia and other places.

*Turdus fuscescens*, Wilson's Thrush—Common, Tawny and Veery Thrush, Cheeury, Veery.

*Turdus ustulatus*, Russet-backed Thrush—Western Thrush.

*Turdus ustulatus swainsonii*, Olive-backed Thrush—Swainson's Thrush, Swamp Robin in New England.

*Turdus aonalaschkæ auduboni*, Rocky Mountain Hermit or Audubon's Thrush.

*Turdus aonalaschkæ pallasii*, Hermit Thrush—Swamp Thrush. "Swamp Robin." Called "Partridge-bird" by the inhabitants of the Adirondack region, from the resemblance of its note, when disturbed, to the "chuck" of the Partridge.

*Merula migratoria*, American Robin—Robin, Migratory or Red-breasted Thrush, Robin Red-breast, Red-breast.

*Hesperocichla nœvia*, Varied Robin—Varied Thrush, Oregon Western and Painted Robin.

*Oroscoptes montanus*, Sage Thrasher—Mountain Mockingbird.

*Mimus polyglottus*, Mockingbird—Mocker, Southern Mockingbird.

*Galeoscoptes carolinensis*, Catbird—Mockingbird in New York, Black-capped Mockingbird in Bermuda.

*Harporhynchus rufus*, Brown Thrasher—Thrasher, Mavis, Brown and Song Thrush, Red Thrush in New England, French Mockingbird in D. C., Sand Mockingbird, Red Mavis.
