

INDEX TO VOLUME 73, 1961

This index includes, in addition to names of genera, species, and authors, references to the following topics: anatomy, behavior, distribution, food habits, fossils, measurements, migration, molts and plumages, nesting, parasitism, physiology, populations, predation, taxonomy, voice, and weights. Also included are references of biological significance to mammals, reptiles, and amphibians. Names of new forms described in this volume are printed in **boldface** type.
