

INDEX TO VOLUME 76, 1964

This index includes, in addition to the names of genera, species, and authors, references to the following topics: anatomy, behavior, distribution, food habits, measurements, migration, molts and plumages, nesting, parasitism, physiology, populations, predation, taxonomy, voice, and weights. Also included are references of biological significance to reptiles and mammals.

- Accipiter cooperii*, 279
