SUGGESTIONS TO AUTHORS

See Wilson Bulletin, 84:513, 1972 for more detailed "Suggestions to Authors."

Manuscripts intended for publication in *The Wilson Bulletin* should be neatly typewritten, double-spaced, with at least one inch margins, and on one side only of good quality white paper. Tables should be typed on separate sheets, and should be designed to fit the normal page width, i.e., narrow and deep rather than wide and shallow. Before preparing these, carefully consider whether the material is best presented in tabular form. Follow the AOU Check-list (Fifth Edition, 1957) insofar as scientific names of United States and Canadian birds are concerned unless a satisfactory explanation is offered for doing otherwise. Use species names (binomials) unless specimens have actually been handled and subsequently identified. Summaries of major papers should be brief but quotable. Where fewer than five papers are cited, the citations may be included in the text. All citations in "General Notes" should be included in the text. Follow carefully the style used in this issue in listing the literature cited; otherwise, follow the "CBE Style Manual" (1972, AIBS). Photographs for illustrations should be sharp, have good contrast, and be on gloss paper. Submit prints unmounted and attach to each a brief but adequate legend. Do not write heavily on the backs of photographs. Diagrams and line drawings should be in black ink and their lettering large enough to permit reduction. Extensive alterations in copy after the type has been set must be charged to the author.

NOTICE OF CHANGE OF ADDRESS

If your address changes, notify the Society immediately. Send your complete new address to the Treasurer, William A. Klamm, 2140 Lewis Drive, Lakewood, Ohio 44107. He will notify the printer.

The permanent mailing address of the Wilson Ornithological Society is: c/o The MUSEUM of Zoology, The University of Michigan, Ann Arbor, Michigan 48104. Persons having business with any of the officers may address them at their various addresses given on the back of the front cover, and all matters pertaining to the Bulletin should be sent directly to the Editor.

## PLAN TO ATTEND THE 1973 ANNUAL MEETING

The 1973 meeting of the Wilson Ornithological Society will be held jointly with the Carolina Bird Club on the campus of the oldest state university, The University of North Carolina in Chapel Hill, from Thursday, 17 May through Sunday, 20 May. Chapel Hill is a small university town, with trees along much of the main street. The downtown area, with its many small shops, boutiques, and a variety of restaurants, borders the University. The campus contains many historic buildings, gardens, an art museum, and the finest planetarium in the nation. The nearby county seat, Hillsborough, was founded in 1754, and has a number of homes and public buildings that were built before the Revolution. Duke University, less than ten miles away, has a beautiful chapel and extensive formal gardens. Tours of these and other attractions are being arranged.

Chapel Hill is served by the Raleigh-Durham airport and four airlines provide frequent service from a variety of cities, including direct flights to points as distant as Los Angeles. Passenger trains still run to Raleigh, and Chapel Hill can be reached by bus. Rooms in dormitories and the University-owned hotel will be available for housing.

Chapel Hill lies in the Piedmont, near the edge of the Coastal Plain. The Brown-headed Nuthatch, Blue-gray Gnatcatcher, White-eyed Vireo, Prothonotary, Yellow-throated, Prairie, Kentucky, and Hooded Warblers and other typical southern birds are found in the vicinity. Red-cockaded Woodpeckers nest nearby. A field trip is being planned to the coast where one can expect to see resident two species of ibises, ten species of herons, six species of terns, Black Skimmers, Brown Pelicans, Willets, Wilson's and Piping Plovers, Avocets, stilts, and many other birds. We expect to find considerable numbers of migrating shorebirds, and pelagic species, such as shearwaters, are not unlikely.

The chairman of the local committee is Dr. Helmut C. Mueller, Department of Zoology, Wilson Hall, University of North Carolina, Chapel Hill, N. C. 27514. Detailed information concerning accommodations, transportation, field trips, and tours will be sent to members with advance registration forms.

### PRELIMINARY CALL FOR PAPERS

The program chairman is Dr. Andrew J. Berger, Department of Zoology, University of Hawaii, Honolulu, Hawaii 96822. Members who wish to present papers should send the following to the program chairman: (1) title of paper; (2) name and address (institutional affiliation, if any) of author; (3) three copies of an abstract, typed, double-spaced, not to exceed 250 words; (4) amount of time desired; (5) special facilities needed (a blackboard, 2 × 2 (35 mm) and 3¼ × 4 slide projectors will be available for all sessions). **Applications for a place on the program must be in the Program Chairman's hands before 1 March. All correspondence with Dr. Berger should be by (domestic) air mail.**
