REQUEST FOR INFORMATION

Least Terns.—As part of our research on the California Least Tern (*Sterna albifrons browni*), we are seeking information on (1) the location of breeding colonies in Baja California, Mexico, and (2) the migration routes and wintering areas of the subspecies. We would appreciate hearing of any Baja California observations of Least Terns, and of any records of Least Terns along the Pacific coast of Mexico, Central America, and South America from September through March. Please send your information to: Sanford R. Wilbur, U.S. Fish and Wildlife Service, 1190 E. Ojai Avenue, Ojai, CA 93023.
