**NEW MEMBER NOMINATIONS—
WILSON ORNITHOLOGICAL SOCIETY**

. . . know anyone who would enjoy joining the WILSON ORNITHOLOGICAL SOCIETY

- your friends who study birds
- fellow members of local bird clubs
- your colleagues
- your students in bird study

Now is the time for WOS members to recommend non-members interested in birds for membership in the Society. Clip out and use the attached nomination forms. The Membership Committee Chairman then will issue the individual invitations to join the Society.

One form is for college and pre-college students, the other is for other nominations. Students have a special incentive to join the W.O.S. while still in school or college: at graduation, they can apply the total amount of dues paid while they were students toward a Life Membership in the Society.

An organization such as the W.O.S., which does not have the close contacts provided by regional or local chapters, depends on the initiative of the individual members for nominations of new members. Thank you for your help in finding new members and thus assisting the continued existence and growth of the Society.

Please mail all nominations to:

Douglas James, Chairman
W.O.S. Student Membership Committee
Department of Zoology

SUGGESTIONS TO AUTHORS

See Wilson Bulletin, 87:144, 1975 for more detailed "Suggestions to Authors." Manuscripts intended for publication in *The Wilson Bulletin* should be submitted in duplicate, neatly typewritten, double-spaced, with at least 3 cm margins, and on one side only of good quality white paper. Do not submit xerographic copies that are made on slick, heavy paper. Tables should be typed on separate sheets, and should be narrow and deep rather than wide and shallow. Follow the AOU Check-list (Fifth Edition, 1957) and the 32nd Supplement (Auk, 90:411-419, 1973), insofar as scientific names of U.S. and Canadian birds are concerned. Summaries of major papers should be brief but quotable. Where fewer than 5 papers are cited, the citations may be included in the text. All citations in "General Notes" should be included in the text. Follow carefully the style used in this issue in listing the literature cited; otherwise, follow the "CBE Style Manual" (1972, AIBS). Photographs for illustrations should have good contrast and be on gloss paper. Submit prints unmounted and attach to each a brief but adequate legend. Do not write heavily on the backs of photographs. Diagrams and line drawings should be in black ink and their lettering large enough to permit reduction. Original figures or photographs submitted must be smaller than 22 x 28 cm. Alterations in copy after the type has been set must be charged to the author.

NOTICE OF CHANGE OF ADDRESS

If your address changes, notify the Society immediately. Send your complete new address to the Treasurer, Ernest E. Hoover, 1044 Webster St., N.W., Grand Rapids, Michigan 49504. He will notify the printer.

The permanent mailing address of the Wilson Ornithological Society is: c/o The MUSEUM of Zoology, The University of Michigan, Ann Arbor, Michigan 48104. Persons having business with any of the officers may address them at their various addresses given on the back of the front cover, and all matters pertaining to the Bulletin should be sent directly to the Editor.
