

NEW LIFE MEMBER

Mr. Bruce Beehler, a Life Member of the society, is currently a graduate student in population biology at Princeton University. His primary research interest at the moment is in comparative socioecology of birds of paradise, although Mr. Beehler is also interested in structuring of bird communities along altitudinal gradients and biogeography and speciation in Papuan birds. He has published two small books, one on Adirondack birds, the other on birds of northeastern New Guinea. Several short papers have also appeared on distribution and ecology of New Guinea birds. Besides his ornithological interests Mr. Beehler is an active back-packer, cyclist and mountain climber.

NEW LIFE MEMBER

Michael R. Joyce, a Life Member of the society, is the Senior Wildlife Biologist for Woodward-Clyde Consultants, Anchorage, Alaska. His main professional interest is the study of the response of avian communities to natural or man-induced changes in their habitats. Mr. Joyce particularly enjoys projects involving wetland avifauna, passerines associated with forest and woodland habitats and raptors. He has prepared reports in this area for government, industry and development commissions. For relaxation Mr. Joyce enjoys skiing, hiking, fishing and photography shared with friends and family.

University of Pittsburgh Ann Arbor, MI 48103
Pittsburgh, PA 15213

SUGGESTIONS TO AUTHORS

See *Wilson Bulletin*, 87:144, 1975 for more detailed "Suggestions to Authors." Manuscripts intended for publication in *The Wilson Bulletin* should be submitted in triplicate, neatly typewritten, double-spaced, with at least 3 cm margins, and on one side only of good quality white paper. Do not submit xerographic copies that are made on slick, heavy paper. Tables should be typed on separate sheets, and should be narrow and deep rather than wide and shallow. Follow the AOU Check-list (Fifth Edition, 1957) and the 32nd Supplement (*Auk*, 90:411-419, 1973), insofar as scientific names of U.S. and Canadian birds are concerned. Summaries of major papers should be brief but quotable. Where fewer than 5 papers are cited, the citations may be included in the text. All citations in "General Notes" should be included in the text. Follow carefully the style used in this issue in listing the literature cited; otherwise, follow the "CBE Style Manual" (1972, AIBS). Photographs for illustrations should have good contrast and be on gloss paper. Submit prints unmounted and attach to each a brief but adequate legend. Do not write heavily on the backs of photographs. Diagrams and line drawings should be in black ink and their lettering large enough to permit reduction. Original figures or photographs submitted must be smaller than 22 × 28 cm. Alterations in copy after the type has been set must be charged to the author.

NOTICE OF CHANGE OF ADDRESS

If your address changes, notify the Society immediately. Send your complete new address to Ornithological Societies of North America, % Sandra L. L. Gaunt, Box 21160, Columbus, Ohio 43221.

The permanent mailing address of the Wilson Ornithological Society is: c/o The Museum of Zoology, The University of Michigan, Ann Arbor, Michigan 48104. Persons having business with any of the officers may address them at their various addresses given on the back of the front cover, and all matters pertaining to the Bulletin should be sent directly to the Editor.

MEMBERSHIP INQUIRIES

Membership inquiries should be sent to Dr. Robert C. Whitmore, Division of Forestry, West Virginia University, Morgantown, West Virginia 26506.

CONTENTS

DISPLAYS OF THE MAGELLANIC OYSTERCATCHER (<i>Haematopus leucopodus</i>) <i>Edward H. Miller and Allan J. Baker</i>	149
THE INCIDENCE OF RUNT EGGS IN WOODPECKERS	Walter D. Koenig 169
HABITAT STRUCTURE IN RELATION TO POPULATION DENSITY AND TIMING OF BREEDING IN PRAIRIE WARBLERS	Michael C. Moore 177
REPRODUCTION AND NEST-SITE SELECTION BY WHITE-TAILED PTARMIGAN IN COLORADO <i>Kenneth M. Giesen, Clait E. Braun and Terry A. May</i>	188
NEST-SITE AND COLONY CHARACTERISTICS OF WADING BIRDS IN SELECTED ATLANTIC COAST COLONIES	Donald L. Beaver, Ronald G. Osborn and Thomas W. Custer 200
THE INFLUENCE OF AGE ON THE BREEDING BIOLOGY OF RING-BILLED GULLS <i>Gerard T. Haymes and Hans Blokpoel</i>	221
NICHE RELATIONSHIPS BETWEEN TURQUOISE-BROWED AND BLUE-CROWNED MOTMOTS IN THE YUCATÁN PENINSULA, MEXICO	Jorge E. Orejuela 229
GENERAL NOTES	
COURTSHIP FEEDING IN SOME EMBERZINE FINCHES <i>Eileen Zerba and Luis F. Baptista</i>	245
CLEPTOPARASITISM BY RING-BILLED GULLS OF WINTERING WATERFOWL .. <i>Jim W. Grace</i>	246
COMMENSAL FORAGING OF SCISSOR-TAILED FLYCATCHERS WITH RIO GRANDE TURKEYS <i>Bruce W. Baker</i>	248
RED-BELLIED WOODPECKER PREDATION ON NESTLING AMERICAN REDSTARTS <i>Doris J. Watt</i>	249
NEST PREDATION BY THE SPECKLED KING SNAKE <i>Charles F. Facemire and Stephen D. Fretwell</i>	249
SCREECH OWL EATS FISH AND SALAMANDER IN WINTER .. <i>J. D. Rising and F. W. Schueler</i>	250
MARSH HAWKS FEEDING ON WATERFOWL <i>Robert J. Blohm, Fred Van Dyke and Bradley C. Livezey</i>	251
DETRIMENTAL EFFECTS OF CECAL DEFECATION IN WINTER ROOSTING WILLOW PTARMIGAN	Howard Parker and Ingolf Hanssen 252
OBSERVATIONS ON THE LIFE HISTORY OF WILLETS ON LONG ISLAND, NEW YORK <i>LeRoy Wilcox</i>	253
